

Dear Families:

Studies show that parental involvement in a child's education

is one of the most important factors in raising student self-esteem and academic achievement. Moreover, most experts agree that parental involvement should go beyond attendance at teacher conferences and open house. We understand that each of our families is unique - with its own priorities, needs, talents, and time constraints. We try to provide as many different kinds of opportunities for parental involvement as possible. Please review the volunteer opportunities suggested below, and check any you are interested in -- or tell us what you would like to do. Please note what times you are available and return the form to school. Thank you for your participation, we couldn't do it without you!
